

2.3.3 Teachers use ICT-enabled tools for effective teaching and learning process, including online- e resources

Teachers increasingly use ICT-enabled tools to enhance the teaching and learning process. These tools include:

1. Learning Management Systems (LMS): Platforms like Moodle or Google Classroom facilitate course management, assignments, and student engagement.
2. Online Resources: Access to e-books, academic journals, and educational websites enriches content and provides diverse learning materials.
3. Interactive Whiteboards: These allow teachers to present multimedia content and engage students through interactive lessons.
4. Virtual Classrooms: Tools like Zoom or Microsoft Teams enable remote teaching, making education accessible regardless of location.
5. Educational Apps: Apps designed for various subjects support personalized learning and skill development.
6. Assessment Tools: Online quizzes and feedback platforms help teachers gauge student understanding in real-time.
7. Collaborative Tools: Platforms like Padlet and Google Docs encourage group work and peer collaboration.

By integrating these tools, teachers can create a more dynamic, engaging, and effective learning environment
