NAAC ACCREDITED

4.3.5 -In-person and remote access usage of library and the learner sessions/library usage programmes organized for the teachers and students (data for the preceding academic year)

Library is the important resource for medical students and staff. DPUMC is having well established library having remote access to its users.

DUPMC organizes awareness sessions for teachers and students for how to use remote access facility of library every year. This awareness is organized for all students and teachers.

Remote Users: On-campus remote users are possessed significant experience with library research and familiarity with electronic resources, and demonstrate relatively high success in using information technology.

A well-equipped library serves a practical role in sharing expensive resources. Physical resources such as books and periodicals, films and videos, software and electronic databases, and specialized tools such as projectors, graphics equipment and cameras are shared by a community of users.

The Central Library has organized a learning session for 1st MBBS Students and staff at Lecture Hall no. 1. All the faculty and students of 1st MBBS attended this session. The students were briefed about the library functions, library resources, library services, library facilities and library rules
