3.2.1 Institution has created an ecosystem for innovations including incubation centre and other initiatives for creation and transfer of knowledge

Response:

The Dr. Ulhas Patil Medical College & Hospital has an ecosystem for innovation, research, and training to boost research activities:

- An incubation center is developed for research, innovation and intellectual property rights activity through Molecular Diagnostic Lab (MDL), Central Research Laboratory (CRL), Simulation Skill Lab and Adverse Drug Reaction (ADR) monitoring centre.
- Our Institute has established Institutional Ethics Committee (IEC) for research which is registered under Central Drugs Standard Control Organization (CDSCO), New Delhi.
- The software for checking Plagiarism is in place and all the users are made aware about it.
- We have Central Research Laboratory (CRL) which provides facility to undergraduate students, postgraduate students and teaching faculty for doing research projects under one roof.
- The CRL is well equipped with the different types of instruments, equipments and testing material for research. The list of equipments and stock registers are maintained and updated. Equipments are arranged in phase wise manner.
- We have molecular diagnostic laboratory (MDL) that provides facilities for RTPCR testing, HCV testing, diagnosis of TB.
- We have a 400 bedded dedicated COVID centre which gives opportunity to students for research in COVID cases. Four projects are currently on going for research on COVID.
- Institute has conducted research methodology workshops, good clinical practices, pharmacy and collection practices, analytical and statistical training.
- We also encourage faculties to conduct and attend workshops, seminars, conference, and lectures of different specialties. We also call external faculties for this purpose.
- Teachers of our college are recognized postgraduate guides and have published many research papers in indexed journals.

- Teachers are doing fellowship programs and training programs to achieve academic excellence. Institute promotes and encourages teachers and students for research projects and fellowship with financial grants.
- Our institute is a tertiary care centre providing health care services to the community and this helps in development of clinical experience and skills in undergraduate and postgraduate students. Till now four ICMR projects have been sanctioned for short term studentship (STS) program.
- The Institute has established Pharmacovigilance Committee which detects and assess adverse drug reactions occurring in institute as well as periphery.
- Our institute is a recognized ADR monitoring centre (AMC) under Pharmacovigilance Programme of India (PvPI).

Thus, the Institution has created an ecosystem for innovations including incubation centre and other initiatives for creation and transfer of knowledge
